

Leverage the power of extraordinary.

There is no question: cash flow is the fuel that powers your business. How well you manage your payables and receivables – and how much time you spend doing so – can make all the difference to your business success.

At Sterling National Bank, we understand these challenges and are here with the guidance and tools you need to help you better manage your cash flow.

Your Sterling Relationship Manager works with you to analyze your business goals and challenges. This single point of contact then leverages an entire team of banking experts to not only come up with solutions to increase the cash available for your operations, but also to help you gain quick access to capital through local decisioning and prepare you for the “what ifs” that may come your way.

It's all about creating a banking relationship designed to help your business thrive.

Power Business Banking

A banking relationship that adds real value to your business.

At Sterling, we want to be more than your business bank, we want to be the partner you trust for innovative solutions that meet your financial needs and add real value to your business.

The Sterling Power Business Banking solution is designed to help your daily cash flow management and reward you as your business thrives.

It starts with Power Business Checking featuring:

- A tiered structure that rewards you for higher checking balances – and makes it easier to offset monthly fees
- An automatic upgrade to the higher tier balance and its benefits if you qualify, so you're always enjoying maximum rewards
- A grace period because we understand the cyclical balance changes that may naturally occur
